
WORKING/LEARNING CONDITIONS & BARGAINING COMMITTEE REPORT

The WLC/B Committee has met on a regular basis to continue discussions related to items that have been problems for classroom teachers the last few years. Consultations with teachers for overloaded classes subject to Section 76 and the data collection that relates to CS/CC funding has been a regular topic at our meetings. We have discussed the impact of the Arbitrators rulings in August, November and January, and the impacts on our classes. BCeSIS, mark books, and the problems incurred in the schools with respect to these issues have also been on the agenda for virtually every meeting this year. We have also had many discussions about the impact of the Olympics on our schools, the H1N1 outbreak, community service students in the classroom, and many other issues. We meet every other month during the year, and have regular input from many, but not all, of the secondary schools in the Local.

Shaun van der Hoop, Chairperson
VSTA W/LC & Bargaining Committee
