
WORKING/LEARNING CONDITIONS/BARGAINING COMMITTEE REPORT

The committee began the year by continuing to monitor Bill 33 issues. Later in the year we became involved in BCeSIS and have spent much of the time looking at how BCeSIS could be improved.

We have looked especially at how teachers could continue to use the preferred Integrate program and have it harmonize with BCeSIS. The committee hopes to continue its role as a BCeSIS watchdog in the coming year as so many schools will start to use the program in September.
